Grayling High School 1977-78 Scheduling

By Kent Reynolds, Principal
Due to the June defeat of millage request and the late date in which the vote for the August 29 election was set, scheduling is not yet complete at Grayling High School for the 1977-78 school year. All Grayling High School students will be receiving letters from the school in the mail near the end of this week. Those students for whom the computer was able to develop a schedule with all of their requests from pre-registration will receive a copy of that schedule. If the student and parents are satisfied with the schedule they will be guaranteed that exact schedule for the coming school year. They need not contact the school.

Those students who received no schedule and those students who were dissatisfied with the schedule they did receive may arena schedule at the school according to the following time table.

Tuesday, August 30, 8:00 a.m. All students with block-time programs (COOR, Co-Op, Building Trades, Food Management), 9:00 Seniors, 1:00 Juniors.

Wednesday, August 31, 8:00 Sophomores, 1:00 Freshmen.

Record Player Donated By Lions

Lions Club President Bob Prause presented the Grayling Co-Op Nursery School with a new record player to replace a very worn-out one. The Lions support the young people in our community in many ways. Howard Taylor received \$200 from the Club for the Summer Recreational Program earlier in the summer. The Camp AuSable for the Blind received funds to support three campers and individual members personally supported three more campers.

The Grayling Co-Op Nursery is a non-profit organization supported by tuitions from the Co-Op parents, Federal funds for supporting a Title I program, and from donations from the service clubs in the community. The Nursery is now in the process of raising funds to insulate the building properly to stop heat loss in winter to lower heating bills.

Both the 3-year-old and 4-year-old groups have openings for the coming year starting this September. Contact the Enrollment Chairman Betty Reinhardt at 348-8803 or Irene Pettijohn, Title I Director at 348-7641, Ext. 52, for more information.

THIS IS A HELICOPTER—What is obvious to people with normal vision is only a loud noise in the air to these blind children at Camp AuSable. That is until the National Guard flew a special mission to the camp and let the kids explore the machines with their hands and a thousand questions. Counselors took the children to the aircraft and led them through the cockpits and pilots seats explaining controls, knobs and handles until what was formerly a noise became a tangible reality. In the above photos, a crowd gathers around the machine after it landed and the rotors stopped. A guardsman places a tiny hand on each control and explains what they are for, while a camp counselor assists one of the girl campers through the bewildering maze. (Rod Denley Photos)

Resignation of Trustees; Aviation Program Topics of Kirtland Board

The resignation of two trustees of the Kirtland Community College and another step in airport negotiations were among matters of business dealt with by the KCC Board of Trustees at their last meeting.

Kirtland Community College has now reached the taxi strip stage in their effort to get their expanded Aviation Program underway here in Grayling.

A resolution to prepare for the release of grant funds from the Upper Great Lakes Regional Commission was adopted by the college board of trustees.

The resolution states that funds allocated through the Upper Great Lakes Regional Commission (UGLRC) and the education department will be \$122,064, and Kirtland's share will be not less than \$30,516.

Acting President Ray Homer told the board the legal tangle at the Grayling Airport which held up the expansion project "looks like it's resolved." UGLRC had set Sept. 30 as the deadline for bidding the project if grant funds were to be retained.

Homer said architect A. Calvin Smith has been authorized to proceed with design bid specifications. Also authorized is a topographical survey cost-

ing \$350-\$500 to determine the amount of fill dirt needed at the site, Homer said.

The exact amount of land needed for the facility will be determined, and then Kirtland will apply with Crawford County and the City and Township of Grayling for a 25-year lease from the Department of the Army, according to Homer. The proposed addition would extend three feet over the property line of the existing site occupied by KCC.

In other business the board accepted the resignations of William S. Eichler of Rose City and Dr. Edward Gallagher of Roscommon. Both men have moved to different areas.

Eichler, one of the original members of the board has become the business manager of the Central Wyoming College at Riverton and Gallagher is an instructor at Oakland Community College and has his permanent residence in Rochester.

The board will have to appoint two new replacements for the trustees.

Fashion Show

The women of the Assembly of God Church are sponsoring a children's fashion show. It will be held at the Grayling Elementary School, August 25th, at 7 p.m. Everyone is welcome. No admission charge.

Youth Services Road 'N River Rap

By Robert Smock

It has been brought to my attention that a retraction of a statement in last week's article is in order. I had indicated in a general manner that law enforcers were turning their backs on the biggest crime in the county - littering. Littering is a crime and is a problem in Crawford County. Yet, it appears that I was out of line saying law enforcers turn their back on this problem. A recent visit to the prosecutor's office, sheriff's office and city police office all indicates clear procedures for handling any and all littering complaints.

Youth Services Environmental Clean-up effort is slowly winding down. On August 26th, thirty six SPEDY enrollees and four CEIA Title VI Supervisors will be terminated as those programs come to an end. The DNR program and Adjudicated/Disadvantaged Youth Program will continue until September 30.

Having completed our ninth week, every main road, the South Branch, AuSable, Manistee Rivers and numerous lakes and campsites have been environmentally cleaned. Our operation has even been extended to I-75, trail roads and desolate hunting and fishing areas. A list of thirty eyesore areas from the DNR has also been completed. For the most part, our efforts these remaining weeks will deal primarily with re-littered areas. A very interesting and informative slide presentation will be available for groups to view at the end of the environmental program.

If you have a littering complaint, I urge everyone to file those complaints with the Sheriff's Department or City Police. The judicial system is the only way by which we can halt the littering problem in our county.

With Crawford AuSable Schools opening shortly, each morning from 9:00 to 12:00, any questions regarding counseling or employment can be answered by Youth Services Counselor or Employment Coordinator. New programs and counseling services will be available in the near future.

9.65 for Five Years

School Millage Vote Monday

By Rod Denley

Voters in the Crawford AuSable School District will be returning to the polls once again this Monday to cast their ballots on a revised and reduced millage issue that will be in effect for a five-year period.

Voters turned down the millage renewal issue by a very narrow margin at the first vote held on June 13th. Voters not only defeated the renewal in that election but also defeated two additional millages.

The ballot for this election does not include the two additional millages but is for the renewal plus .50 mills in addition. In the last election voters could vote on three different propositions for a one year period but in this election the vote will be for a single amount over a five year time span.

Wording of the proposal on the ballot is as follows:

"Shall the limitation on the amount of taxes which may be assessed against all property in Crawford AuSable School District, Crawford, Otsego and Kalkaska Counties, Michigan be increased by 9.65 mills (\$9.65 on each \$1,000 of state equalized valuation) for a period of five years, 1977 to 1981, inclusive for the purpose of providing additional funds for operating purposes. (9.15 mills being a renewal of 9.15 mills for operating purposes which expired with the 1976 tax levy and .50 mill being additional operating millage)?"

The distinctive change in the proposal is the five year duration of the renewal instead of the yearly proposal which voters here have been used to in former years.

"The decision to go for a five-year

renewal came about because the board thought it would be good to get away from a yearly election just for renewal millages every year," says Fraser Dean, superintendent of the local school district. Dean says the election just to get a renewal passed costs taxpayers a lot of extra money in election costs and takes a great deal of time to accomplish. He confirmed that any additional millages needed for operation on top of the renewal in future years would still require a vote by property owners.

"This renewal is a reduction of 1.8 mills from the initial sum total of the millages that were proposed in June," said Dean. "This proposal is representative of the very sincere effort made by the board to cut back in every possible way on expenses. It is a determined effort to be responsive to the problems faced by the taxpayers and to go as far as they can possibly go, in making cuts and still provide decent education for children."

"It's a damn tight budget and a very frugal approach to education," he added.

Dean said there is a high pitch of interest in the election within the community and this has been especially reflected in the absentee voter turnout which has been quite high.

Dean has declined to comment on what course of action will be followed in the district if the renewal is not passed. He said, "We will just have to cross our bridges as we come to them."

He did confirm that new teachers were being hired on to replace a number of teachers that have left this year and are only being hired on temporary contracts

that will expire in November. A lost election will inevitably mean another vote somewhere down the road he said.

The school system will open and operate on 6 mills that was approved last year and on 7.1 mills that is allocated by the state to the school system, he said.

In a public statement released last week by the board relating to the millage, the board members said the reduced millage in this election is a reduction that came, "after a long and arduous study and discussion." The statement also says, "...this is the minimum amount of millage needed to provide an education that meets the basic needs of our children. We were able to arrive at this reduced millage request because of the following reasons:"

The reasons included increased funding from State Aid due to changes in the State Aid assistance formula, a reduction of classroom teachers, additional reductions in the extra-curricular activities and monies left over from last year's program due to tight spending, reduced programs and savings in fuel, electricity and maintenance costs.

"We believe this is a compromise and represents a sincere effort to be responsive to the concerns of taxpayers and the needs of school children," says the statement.

A number of citizens committees had prepared reports in the past which dealt with several areas of concern within the school system. The board replied to some of these issues in their report as well which stated, "We did rearrange our priorities somewhat to deal with problem areas by allocating additional monies for textbooks, teaching supplies, library books and elementary physical education."

\$380,000 Grant for County

WASHINGTON, D.C.—Congressman Philip Ruppe today announced that the U. S. Department of Housing and Urban Development has given final approval to a \$380,000 community development block grant for Crawford County.

HUD made preliminary project selections in March, and subsequently invited 13 Northern Michigan communities to submit funding applications.

Today's award clears the way for Crawford County to proceed with its proposed public facility projects, including sewer lines in the City of Grayling, and street improvements in Frederic and in Grayling Township.

In addition, the County will continue its housing rehabilitation program that was initiated last year with community development block grant funds.

Red Cross Fire-Fighter Support is Inaugurated

Effective August 15th, the proposed plan to provide hot coffee, cold drink and food to Crawford County Volunteer Firemen on the scene when fires last more than a few hours is in effect.

At the Annual Meeting of Crawford County Chapter/American Red Cross at the Shoppenagon Hotel on July 26th, Mr. Howard VanDeWater accepted the Chairmanship of the Red Cross Fire Support Program, and six teams are on standby alert on a rotating basis, now, prepared to bring food and drink to our Volunteer Fire Fighters on long fires.

The equipment for this service is kept in the Crawford County Courthouse under the supervision of the Sheriff. Whenever a County Fire Chief determines that the fire will last longer than a few hours, he will

OLDEST BOAT IN THE SHOW—Pete Stephan does the honors for his father Herb as they take time to fish from the oldest boat entered in the show: a craft built in 1931.

Vote Monday!

By Rod Denley
The Fifth Annual AuSable River Boat Regatta was a pleasant page from the past and a hopeful note for the future.

More than 30 of the long wooden boats were moored on the riverbank Saturday morning at Edgewater on the AuSable, while over 90 people enjoyed the warmth of good company and a large fire pit. A steady stream of pancakes, boiling coffee and friendly conversation got the day off to a sunny start after freezing temperatures of the night before.

Following breakfast, which was hosted by Bernie Fowler, the boats slowly slipped away in the morning mist as fishermen and sightseers began a leisurely float down the river from Stephens Bridge to Wakeley Bridge.

Standing on Stephens Bridge as the canoes slipped away from the grassy banks of the Fowler home, the river seemed to turn back in time. The rivermen quietly poled their craft along and dropped their flies into pools and eddies and hoped for a successful strike.

Others simply sat back and let the river bank slip by, soaking up the rising sun and returning the stare of a sleek brown mink that paused in his fishing for a few seconds to stare at the parade of boats that slowly slipped downstream past his glistening eyes.

The riverboats gathered at the regatta seemed almost as natural a part of the river as the sleek mink and Arthur Binard, owner of the boat judged prettiest of the day, hopes they will be on [See Long Boats on page 7]

ROSCOMMON, Mich.

Austin Scott Has Had Varied Life Takes Up Oil Painting at Age 79

By Rod Denley

Austin J. Scott is a painter; a hobby he took up at the age of 79 and he paints very well.

It is not surprising for a man who has also worked in the lumbercamps of the Upper Peninsula, rode on the lumber trains and passenger cars from Bay City to Mackinaw, ran a lodge that catered to many Detroit doctors and lawyers, managed a liquor store and after all of that, he went into a peach farming business that within three years took the laurels

away from the top experts in that field.

Mr. Scott is now 87 and he and his wife Ruth sat in their lodge this summer on the North Branch of the AuSable River and reminisced about the good years they have had in Crawford County and many other areas of Northern Michigan.

He grew up in Roscommon, the son of a doctor and has followed a colorful career since then, all of which has given him a vast reservoir of experience and memory to bring to his painting.

How did he begin to start painting at the age of 79? Sitting in the front room of the lodge he pointed to a corner of a screened-in porch and said, "My wife was spending a lot of her time crocheting and knitting, and I was sitting there in my chair just looking at the river. After a while I got pretty bored with all of that and I decided to take something up." The spark that set it off was a visit from a friend to his peach orchard in Alabama who had come to help with the harvest. That man was Emil Golinck of Grayling, and he picked up one of the many cats that roamed the Scott farm.

He drew a picture of the man holding the cat and people were surprised at the talent in the drawing. His wife urged him to get some watercolors and he did. That soon led to oils and soon he was painting regularly. Since that time, he has done over 100 paintings, many of them depicting his early experiences in the logging camps and his childhood days in the Roscommon area.

The paintings are those of a man who started from scratch and became a self-taught artist. As he went along, Scott says he learned techniques and adapted them to his painting. One depicts a river, jammed packed with logs, so thick the water can

hardly be seen. "That's just how it was one morning when a bunch of us kids went down to swim in it when I was really young," he said. "The logs had piled up all the way along the river. So instead of swimming, we spent the whole morning bouncing from log to log and running along them. We went over a mile and a half upstream on top of those logs."

"The first few pictures I did with oils were kind of bad. I had a hard time for awhile but soon I learned how to do it a lot better. Now my house in Alabama is full of paintings."

Many of the paintings depict the logging days in Michigan which were a way of life for Scott for many years. "When I was 20 years old I was working at the docks in St. Ignace and it was cold. You couldn't find a warm place to sleep and it always was cold and damp at night. As things got worse in the fall I decided to head for something better." Something better was a job for the winter in a lumber camp in the Upper Peninsula near Trout Lake.

"I was a chore-boy in the camp and my day started at 3 in the morning. When I had to light the lamps and get the stoves going. Then it was a full day of chopping wood and carrying water until I put the lamps out at 9 p.m. For that I got one dollar a day and after the winter was over, I had \$100. I wanted to get home to Roscommon with the \$100 intact so I didn't even eat all the way home."

Scott also spent many years as a brakeman on the railroad and also carried the mail for seven years to Lewiston. "I was the first one in Grayling to have a snowmobile for the mail run in the winter," he said. The machine was built by a Grayling mechanic from an old Ford car and he used it to deliver the mail until he was underbilled and lost the route.

For 17 years he was on the railway and would usually haul logs either out of the bush or on the long runs down to Bay City. "I was also a Fourth of July conductor once in a while," he said. "On that day there was always extra cars needed to haul tourists up to Machinaw Island. Then I would end up being a conductor for a day instead of my usual job of being a brakeman."

"There were over 350 men on the seniority list for the railroad back then, and as far as I know now I am the only one that is left."

Scott was not content to be just working on the railway in those days. He decided to build a tourist resort as well. He worked for many months on the edge of the river after first building a road into his property from McMaster Bridge down to the river near Kellogg Bridge. Then he constructed a half dozen cabins by hand, including a huge log lodge. Guests would come from Detroit and included many doctors, a judge and others who came to enjoy the "wilderness" and do some fishing.

The visitors would use one of the many small cabins and have their meals in the large lodge at the long wood tables. The doors

are hand hewn pine over two inches thick. There are hardwood floors and in one corner is a huge stone and brick fireplace. His wife would do all the cooking and at times up to 30 guests stayed at the lodge.

Many people at that stage in life would have been content to ease up a bit, but not the ambitious northerner. Instead he got sick and went into the peach business.

The couple were on their way to Florida after closing up the lodge for the winter when Mr. Scott became ill while going through Alabama. He spent almost two weeks in the hospital and after his recuperation was over, went on to Florida.

"Florida was too built up and I did not like it at all," he said. "So we packed up and went back up to the exact place in Alabama where I was sick and we ended up buying a 154 acre farm. We thought it would be just a nice place to spend the winter with nice woods and a garden to grow some flowers in for our enjoyment."

Like the best laid plans of many people that was not the way it went. "Everyone was talking about planting and growing peaches. So I set out 30 acres and then went back and forth from Michigan to check up on them from time to time. The second year after he planted the trees he had a good crop which pleased the couple very much, since many people had warned them that the task of growing peaches was not ground on which amateurs should tread. "I had never farmed anything in my life but I was always interested in fruit growing. People told me that even the professionals have a lot of trouble in making a go of it," he said.

The third year after he planted his trees even the experts were looking to the Michigan peach grower with envious eyes, since in the peach growing contest that year he had entered a bushel of his best fruit. After the judges had completed their examination of all the baskets, the top prize went to the man who had just gotten into the business, and Mr. Scott was from that time established as a reputable fruit grower.

Before he gave up his orchards, Scott said he had 7,000 fruit bearing trees planted and for many years he grew peaches commercially. Then he decided it was time to slow down a bit and has now retired. He spends his winters in Alabama and a few months at their cabin. He fishes occasionally but not too often any more. "I used to love to fish the South Branch and I went over there last year with my grandson. Well, we sat there and watched over 125 canoes go by in two hours and we gave up in disgust and came home."

Sitting on the front porch of his cabin he points to the North Branch and says he is happy the canoes use it rarely. He is however very content with his long and colorful life and said as the interview was ending that he was very pleased with the way things have gone and said he has already gotten more from life than many other people. His life has given him a lot of satisfaction. "I have lived very well and I am grateful," he said.

PAST MEMORIES COME ALIVE—Austin J. Scott and his wife Ruth hold one of many paintings done by Mr. Scott during the past few years. His early years as a young man in the Michigan lumber camps left him with vivid memories that he carried with him until he began to paint. Those scenes became the material that inspired many of his paintings.

From Our Corner...

Once again, the Crawford AuSable Board of Education will be asking the voters in the district to provide the millage in order for the school doors to be opened this year.

In the June election, voters turned down the operating millage proposal by six votes, while defeating two other millage requests by a 2 to 1 margin.

As we think about it ... seven NO votes in June has cost the district between \$2,500 and \$3,000 (non-educational) to again ask the electorate to please furnish us with the money to educate your children.

Taxation — no one wants — especially those on a fixed income, or those who may own a lot of idle property, or those, like myself, who are trying to get ready for the day of relaxation.

We can understand the feelings of the voters in the June election — only for two-thirds, that is. Not for the defeat of something that already existed.

We all know something drastically has to be done in the financing of our entire state's school system.

May we suggest those in opposition to the present way of school financing start bombarding your state representatives and senators in Lansing to come up with a solution, instead of taking your wrath out on your local school board and school administration.

The other day we also heard those in command of the school system were trying to sneak through a five year plan for the operational millage. The sneak play, if true (you have to be out of your tree to believe it) I go along with their thinking.

What this would mean is that children in the school district are assured that the schools will open at least for the next five years ... teachers in the system would not be given pink slips in the spring with anticipation possibly of employment in fall ... a saving in the cost of elections each year ... plus, if there is extra millage needed, the need for it would have to be proven — at least the doors would not be shut.

For those interested, we are going to vote for education.

After reading last month where the Board of Commissioners had retained a law firm of Clary et al. at \$150 per month, we held back any comment in case they may have rescinded the motion this month.

Negative.

Then we thought, possibly Crawford County does not have a Prosecuting Attorney to handle the affairs of the county, but then we met our Prosecutor in the county building last week which brought another incident to mind concerning our county legal advisor.

Seems as how — and this goes back quite a few years — the county, then the Board of Supervisors were going to prosecute an individual, and when they approached the attorney found out he had been retained by the defendant.

The board went out of the county to hire an attorney to defend themselves while prosecuting.

In our opinion, both incidents were assinine.

In Flight A for the Wednesday morning Golf Auxiliary, Corrine Smith topped all three towns with a gross of 42, a net of 34, and putts of 13. She also scored a bird on number 5. Mary Pettengill and Pearl Tucker both chipped in on number 1.

In Flight B, Ann DuBois took low gross with 49. Kay Ellen Juntilla took low net with a 34, and Ann DuBois also put in only 14 putts.

In Flight C Phyllis Scheer took all three lows, low gross of 55, low net of 36 and low putts of 16, however she had to share low net of 36 with Donna Denton and low putts with Marian Joseph with 16.

Flight B served the potluck luncheon which was followed by a short business meeting. President's Day is all set for August 29 with a morning of golf. Flight A is in charge of pre-luncheon activities and Flight B and C will furnish the luncheon.

The Bible Speaks

From Calvary Baptist Church

The Great Tribulation Seal Six Rev. 6:12-17

Opening the sixth seal of Revelation six, we observe the increased intensity of God's wrath upon a rebellious people who have openly defied and rejected Him. In verses 12-14 we read of the terrible earthquake, the light of the sun and moon blocked out plunging the earth into darkness. The destruction of many of the stars of Heaven, the moving of earthly terrain such as mountains, rivers and islands, all resulting in a total change in the physical appearance of the heavens and earth. Along with this we can imagine the ear splitting noise of this catastrophic event, along with the terrible smell of molden gases released through the earth's crust. What an indescribable nightmare of horror yet awaits this entire earth and all who refuse to accept Jesus Christ as God and Savior.

Notice that men of all walks of life shall seek to hide from God's wrath. "And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains; And said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb." Rev. 6:15,16.

Self-sufficient kings of political leaders shall cry out in fear. Great men of wisdom shall also cry out. Rich men will find their wealth of no benefit and begin to pray. Soldiers and mighty men of war will crawl helplessly into the dens. All unsaved men of all classes from slaves to the free men shall cry out in fear as they realize that "the great day of his wrath is come; and who shall be able to stand?" Rev. 6:17.

This description of the future reaction of the unsaved world to God's judgment gives us much insight into the evil, rebellious nature of man's heart. Notice that none of them were willing to repent of their sins which brought about their terrible suffering. None of them were willing to bow down their knees and ask Jesus Christ to forgive them and enter their hearts. None of them were praying to God to give them eternal life. They prayed to the rocks and mountains rather than to the God who created the entire universe. They prayed for death to separate them from the face

of God, yet death would only bring them face to face with God in eternal judgment. This gives us some picture of why men who rebel against God must spend eternity in Hell.

I have talked to many people in Grayling over the past five years who deliberately refused to accept Jesus Christ and are now in an eternal Hell. Nothing said could convince them of the importance of trusting Christ. They too chose to face death and Hell rather than to acknowledge their sin and trust Jesus Christ as their Savior and God.

Please trust Christ today and avoid all thought of this terrible judgment. (adv.)

Frederic Centennial Presentations

Wellington William Batterson, Batterson family historian, was the Master of Ceremonies. He presented the members of the Royal Family that were present. They were Centennial King, Kenneth Newberry; Centennial Queen, Merna Newberry; one of the court, Candy Alma and Prince Maurice Alma, Jr. Our Citizen of the Year, Rose Ann Armstrong Owens, and our Senior Citizen baby picture contest winner, Fred Duncley.

Our Citizen of the Year, Rose Ann Owens, was presented with a document from Joseph G. Bertrand, City Treasurer of Chicago, Illinois, and our Centennial Queen, Merna Newberry, was presented with a document from Michael A. Bilandic, Mayor of Chicago, Illinois. It was their expression of congratulations on Frederic, Michigan's Centennial. These presentations were read and accepted gratefully in behalf of all the people of Frederic and the Frederic Historical Society Archives in which they have been placed.

Our special guest was Forrest E. Cooke, Space Historian of the Jackson Community College, Wellington W. Batterson presented Mr. Cooke with the book, "Marvelous Wonders of the Whole World," which had been owned by Levant Bangs in 1886. It was at Mr. Bang's request that this book be passed on to some worthy descendant of the family. Mr. Cooke accepted this book in behalf of our astronaut, Alfred M. Worden, of Apollo 15, who was the command module pilot of that flight in July, 1971.

This special presentation was made at the Frederic Centennial because of the heritage and lineage that ties Alfred M. Worden to our little town of Frederic. The special editions, that were donated to our Frederic Historical Society by Wellington Batterson and Forrest E. Cooke, also were greatly appreciated.

Bits O' Talk

The office of the Grayling Elementary School will be open every day starting on Monday, August 22, for the two weeks previous to the opening of school.

Mr. and Mrs. John J. Mathews of Sorrento, Fla., are spending two weeks here visiting his mother, Mrs. Pearl Mathews, who has been hospitalized.

Loren Goodale, Jr. would like to remind everyone that the Home Safety sheets can still be handed in at the Bakery. He would appreciate getting more in.

Because of the fire at the Michelson Memorial Church, the Dice garage sale is being held this Friday, Saturday and Sunday in order that the Dice children may donate all the profits to the church rebuilding fund.

Editor's Mailbox

Dear Editor:

I feel it is necessary that I comment about my discussion with the city council in view of the distortion printed in the council minutes last week. Regardless of council's opinion a \$4.75 charge for late payment is unreasonable.

City governments are organized to provide benefits to residents that they cannot individually provide by themselves. Providing water service can be one of those benefits. Putting a large charge on a late payment is a punishment which is a court's area of jurisdiction in our system of government. On my water bill \$4.75 amounted to 23.5%. That is a rather high rate of interest.

The city water billing policy says this charge may be assessed as a shut-off and a turn-on charge when ordered because of non-payment of bill. Nowhere in the policy does it even mention a late payment charge. I went to the council to protest the charge, not just on me, but on anyone who happens to be late for any one of a number of reasons. I am sure there are people in town who find it difficult paying their bill, let alone such a high penalty. I just forgot about mine.

Mr. Golnick referred to me requesting council to change the due date which I don't feel has any bearing on this situation. The old policy was to allow 10 days from the date of mailing, regardless of when the bill was received, before it became overdue. This meant that at times people who were on a two-week pay period got their bill after one pay and had to pay it before the next one.

Council did not change the procedure and probably won't unless more people express their opinions to council or council members.

Ex-Vikings Now College Gridiron Foes

Two former Grayling Viking gridiron speedsters will be on opposite sides of the field Oct. 15th when Saginaw Valley State College takes on Grand Valley State College in a Great Lakes Intercollegiate Athletic Conference Contest at Allendale.

Cliff Bonamie and Will Roach, while wearing the colors of the Vikings were outstanding running backs, and both received all-conference and all-state recognition.

Bonamie, resumes his half-back position with the Saginaw Valley Cardinals as a junior this year, while Roach will be entering college football for the first time with the Grand Valley squad as a backfield noper.

Both players are enrolled with athletic scholarships.

THANK YOU

A very special thank you to everyone who was so nice to me while I was in the hospital and recuperating at home.

Long Boats

(Continued from page 1)

the river for a long time to come.

He sat in his beautifully restored craft Saturday morning before heading downstream and said, "There are very few of these boats being made any more. Every once in awhile a few more are made each year by a small handful of dwindling craftsmen, but it is becoming a dying art. The nice thing about it is that someone always comes along and keeps up the tradition."

Tradition is what the regatta is all about since many of the boats are not only beautiful but some are quite old as well. The award for the oldest boat went to Herb Stephan for his sleek beauty built in 1931.

Binards boat gently tugs at the rope holding it to the shore as the currents of the river pull it along. It almost seems to strain to be set free so it can float along. One is reminded of a bird dog prancing with anticipation as the leaves turn in the fall and its master pulls the gun from the cabinet and gets out his hunting clothes.

Binards boat is a monument to the long and careful art of building that originally created the graceful curves and tapering lines of the craft. It is at the same time a tribute to hours of painstaking upkeep and reconstruction that went into the finished product on display Saturday morning following a year of refinishing.

It glistens with polished brass and warm glowing wood. The first thing you notice are the distinctive seats. They are reminiscent of the well-made, white ash snowshoes rarely found today. The seats are made of double hoops of steamed curved white ash laced with rawhide to form the support. Beneath each seat are tucked carefully made wooden drawers to hold flies and other tackle. Trout at the top of a burst from the water are captured in cut-out silhouettes in the wood. A perfectly fitted and highly polished brass bow fitting glistens in the sun. Flyrods sit in carefully formed rod racks on the side of the boat.

"This annual event we hope will always keep the interest in riverboats alive and grow each year," says Binard.

After the boats finished their float down the river, the participants pulled out at Jim's Canoe Livery where roasted sweet corn, hot dogs and assorted dishes were warming by the fire.

Judges for the awards were Larry and Joan Mattis and Don Feldhauser. They handed out two glistening trophies to the top fishermen as well as the boat awards. The prize for the largest brook trout went to Sharon Simpson for her 8 1/2 inch trout and Mike Wieland picked up the prize for the largest brown trout after landing a 13-inch beauty. It was a fitting finish for a fine day.

Chamber Action...

Grayling Regional Chamber of Commerce
Serving ALL of Crawford County!

BY WALT NOWAK
EXECUTIVE DIRECTOR

May 9th will always be a day for me to remember, for it was the first day on the job at the Grayling Regional Chamber of Commerce, and a new challenge to assist and co-ordinate the activities of the community for the good of the people.

Much has happened since that day. I remember the advice of the officers and Board of Directors who said to take it easy, get acquainted, get the feel of the community, listen, listen, listen. This I have done and I have found people of many interests. I find people who are gung-ho for the expansion of the business district; some want to increase tourism; some want to invite and develop more of an industrial climate to stabilize the economy; some want to have the taxes lowered, and some just don't want anything to happen. Leave well enough alone, they say. With these kinds of opinions it's difficult to exert some effort in a particular direction without first weighing the potential results and who will benefit from the effort. The Chamber of Commerce Board of Directors will consider any issue for discussion among the members and then take a public stand on the issue according to the wishes of the membership.

At any rate, the Chamber of Commerce is the catalyst of the county in bringing together the people involved in planning the future of Crawford County and its people. The Chamber works closely with the National Guard all through the year. Especially during encampments of the Guards from Ohio, Michigan, Indiana and Wisconsin. The Chamber hosts a special reception for the "Outstanding Soldier" from each of these encampments and presents the recipient with gifts from the business community. Another local effort was made possible through the generosity of these six members: Grayling State Bank, Holiday Inn, Grayling Restaurant, Mel Nielsen, Cornell Realty & Insurance, and Fred Bear; bought six rowboats for the use by the Guardsmen during their stay at camp to do some fishing. The maintenance of these boats are in charge of Post Commander Col. Rutkowski's staff.

Another very important facet of our economic livelihood is the tourist. It used to be that most of the business in our shopping area was done during the three months of summer, June, July and August. The traveling public, such as the sightseer, vacationer and summer resident dropped a bundle in our community because they liked it here. With advent of snowmobiles, cross country skiing and the winter weekends, carnivals, etc., the business barometer on the charts, no longer shows peaks and valleys, but a more steady cash flow as is indicated by bank deposits. The Grayling area now boasts an all year around economy. The responsibility of the Chamber in this instance is to attract the tourist to our area and keep him here.

The attractions for the tourist are many, thanks to the spirited citizens of our community... just for instance, 20 Stages Rally, Milltown Festival, 4th of July Celebration, World's Greatest Canoe Marathon, White Pine Stampede, Color Tours, Small Game Hunting, Red Coat Roundup, Winter Carnival, Cross Country Skiing, Fishing and every winter weekend Snowmobiling, and always, tours of Camp Grayling.

Talk about action... ACTION. WE HAVE LOTS OF IT... Be Active. Join Us...

Flakiest

Michigan Supreme Court offers half-decision in Del Rio case

Richard Milliman

One of the more unrealistic judgments by any court of the land in recent days is the decision by the Michigan Supreme Court in the case of James Del Rio, the suspended judge of Detroit Recorder's Court.

Veteran court-watchers on all levels — local, state and federal — might differ on whether the Del Rio decision was really the strangest of all; that's why I don't claim the ultimate for the Del Rio case. There are just too many contestants for the title of flakiest court decision, but you'd have to include the Del Rio judgment in any competition.

Consider the facts of the case. James Del Rio, a former Michigan state legislator, was elected to the Detroit bench in 1972, shortly after he achieved his law degree. Some of his judicial tactics attracted attention, and, in due course, he was suspended in September of 1976, and subsequently was found guilty of 23 charges of judicial misconduct by the Michigan Judicial Tenure Commission. The fact-finder in the case, State Appellate Judge Timothy Quinn, concluded that Judge Del Rio was "legally, temperamentally and morally unfit to hold any judicial position."

Among the charges against Del Rio were that he improperly returned \$40,000 in forfeited bail bonds to a Detroit bonding agency; that he was consistently rude to court personnel, witnesses and attorneys; that he coerced defendants into pleading guilty with promises of probation; that he disregarded state laws, court rules and guidelines for judicial conduct; that he improperly used his office to benefit friends, including fixing traffic tickets; that he conducted himself in a partial and improper manner; and that he displayed gross lack of judicial temperament.

In fact, Judge Quinn found, if Del Rio's "record of misconduct were divided equally among 10 judges, there would be enough evidence to warrant removal of each of them."

Whew! Now that's pretty severe criticism of one of the bulwarks of our democracy, to wit, a duly elected judge of a court of record.

In essence, the Michigan Supreme Court agreed when it took up its role in the Michigan system of judicial reprimand. On the returned \$40,000 in bond

money, for example, the Supreme Court said that "the unlawful and clandestine method" in which the situation was handled by Del Rio was "clearly partial and improper."

Continued the state's highest court: "Judge Del Rio forgot he was chosen by the people to be their servant. On an habitual basis he forgot to be reasonable and courteous with persons having business with his judicial office."

"The canons of ethics and code of judicial conduct set fair standards for judicial temperament: Judge Del Rio repeatedly chose to violate them. Judge Del Rio, a master of intimidation, displays through his bizarre behavior a gross lack of judicial temperament."

"Looking beyond all the technical legal issues, we perceive the real issue in this case to be the preservation of the integrity of the legal system."

Now, good citizens, how would you like to have a guy like that running a trial in which your freedom or your property or even your life might be at stake? You wouldn't, right? Right. And so ruled the Michigan Supreme Court.

At least, for the next five years. With "the preservation of the integrity of the legal system" at stake, the Michigan Supreme Court suspended Judge Del Rio from his job, and barred him from holding another major judicial post for five years. That's what I call a slap on the wrist.

Notice, it did not completely remove Del Rio this "master of intimidation" who displays "bizarre behavior;" it suspended him, which means he is a judge on suspension ... with no pay, thank goodness. But it also means that the post is not vacant, and therefore the Detroit Recorder's bench is one judge short. It also means Del Rio can run for another term on the court — or run for any other job, including the Michigan Supreme Court — and if elected, he could don his robe and judge his cases after a five year lapse.

The Michigan Supreme Court blew it.

The decision is a half-decision, not a full-scale decision. Del Rio is off the bench, but he isn't. He's out as a judge, but he isn't.

If the courts should seriously wonder why public confidence in the judicial system seems to be fading, maybe they should take a look at what they're doing to themselves.

Almanack

Class of '40

Minutes of the thirty-seventh annual class reunion of the class of 1940 was held at the office of the Class Registrar, the home of Ms. Mary Jane Knibbs, who maintained the class records.

The meeting was called to order by Mary Jane Knibbs as the class came through the rain and into her home, known as the Knibbs Half-way House.

Roll Call was made and the following answered present: Ruth Burrows Moore, Mary Jane Joseph Knibbs, Patricia McKenna Hayes, Glory MacNeven Frymier, Jack (Bottle) Hull and Melvin K. Nielson known as "Mev".

Election of the Home-Coming Queen and Officers for the ensuing year was then held and after many secret ballots the following were elected to reign until their successors be chosen.

President and Home-Coming Queen: Ruth Burrows Moore. Vice President - Billy Jim Kraus (Bill was tied up with banking and chamber business and was not in attendance.)

Treasurer - Robert Herbison (Bob was all tied up being Vice President in charge of cattle production in Saskatoon, Saskatchewan and also was not in attendance.)

Secretary - Mary Jane Joseph Knibbs.

Historian and Social Director: Who else but the one and only Patricia McKenna Hayes.

Telephone calls were then placed to all known classmates around the country.

It should also be mentioned at this time that a few select guests also attended the meeting and they were: Ruth Nielson, Wes Hayes, Larry Frymier, Bill Moore.

It was decided to have a class cook book distributed as well as a car wash scheduled for December 26, 1977 - this is a necessity as the class treasury had been depleted by a telephone call to Robert Herbison in Canada.

Games were then played - winners being - Larry Frymier, Melvin Nielson, Ruth Nielson and Bill Moore. Some of the more bright students were absent from the winners circle - namely Patricia, Gloria and Mary Jane and the Home-Coming Queen Ruth Burrows.

Prizes were awarded and meeting was adjourned at 12:00 Midnight.

To the Editor:
Dear Sir:

We, as concerned parents and citizens of the Crawford - AuSable School District, would like to urge all voters to get out to the polls on August 29 and vote for the millage renewal request.

The voters of Crawford County have shown their concern by electing an enlightened board and the board has studied the operating budget very thoroughly. They have come up with a workable and fair budget for the coming year and we think every concerned citizen and parent should show his support by getting out to vote next Monday.

Our children need our support and interest in their education. Sincerely,
Phil and Donna Clark

Notice of Annual Meeting to all Grayling Youth Booster Club Members

Attention: Grayling Youth Booster Club Members

I hereby notify you that pursuant to the authority vested in me as President of the Grayling Youth Booster Club and Section 122 of the General Corp. Act, I hereby announce to all members of the Grayling Youth Booster Club of the annual meeting to be held at the American Legion at James Street, Grayling, Michigan on the 11th day of September, 1977 at 1 o'clock p.m. for the purposes of accepting, or rejecting proposed By-laws passed by the Board of Directors of the Grayling Youth Booster Club.

SIGNED:

Irv McIsaac

PRESIDENT

Editor's Mailbox

Editor's Note: The following is the final of three articles by the Crawford - AuSable Board of education pertaining to the millage renewal vote to be held August 29.

We, the members of the Crawford - AuSable School Board, believe we have been given two mandates by the voters of this district. They are: 1) provide each child with a sound education, and 2) do so at the least possible cost.

With this in mind, we took our proposed budget for the 1977-78 school year back to committee and cut expenditures everywhere we believed we could without seriously damaging the quality of education our children are receiving. The cuts include some classroom teachers and some extra curricular activities. We also rearranged our priorities somewhat by allocating more for library books, textbooks, and teaching supplies.

On August 29th, we will be voting on a single issue: Tax Rate Limitation Increase Proposition for Operating Purposes.

Shall the limitation on the amount of taxes which may be assessed against all property in Crawford, Otsego and Kalamazoo Counties, Michigan, be increased by 9.65 mills (\$9.65 on each \$1,000.00 of state equalized valuation) for a period of five years, 1977 to 1981, inclusive, for the purpose of providing additional funds for operating purposes (9.15 mills being a renewal of 9.15 mills for operating purposes which expired with the 1976 tax levy and .50 mill being additional operating millage)?

Because the Board has previously dropped debt retirement millage for the coming school year by one mill, the total school millage will be 1/2 mill lower than last year, if the millage proposal passes.

We have made a determined effort to be responsive to the needs of our children and the concerns of the taxpayers. We want desperately to work in harmony with the community to see that our children are not short-changed in their education and that your tax dollars are spent wisely. Please contact us now or whenever you have a question or a concern regarding the schools.

Bits O' Talk

By Fay Bovee

Mr. and Mrs. Jack Dibble (nee Virginia Day) of Hollywood, Fla. flew up to spend two weeks visiting her parents, Mr. and Mrs. Glen Day. Also coming for the weekend were their son and family, Dr. and Mrs. Dennis Day of Okemos.

Fred Hoyt of Kingsley, Mi., spent Tuesday of last week visiting Pat and Alice Madsen at their home on Wakeley Bridge Rd.

Mrs. Thomas (Dorothy) Wakeley of M-72 East has been transferred from Mio to Timberline Village on Old 27 North.

Mr. and Mrs. Russell Boudrie (nee Alice Wakeley) of New Boston, Mi., spent the weekend with her sister, Madlyn Hinkel, Wakeley Bridge Rd. While here they visited her father, Tom Wakeley, who is a patient at Mercy Hospital, and Mrs. Wakeley at Timberline Village. Mrs. James Willis (nee Bessie Wakeley) of Boone, who has spent several weeks here with her father, returned to her home Friday.

Guests at the home of the Clarence Papendick's the weekend of the wedding of their son, Rusty, to Pat Lifford were Mr. and Mrs. Lester Dehne and daughter, Millie, Emil Dehne and friend, Jean, two sisters of Mrs. Papendick's, Mr. and Mrs. Lawrence Naiberg and Mr. and Mrs. Frank Bonk, her daughter, Mrs. Judy Herman and her daughter, Joy, and a brother, Gerald Steffen, all of Manitowish.

Mrs. Rosa Christenson spent a day with Mr. and Mrs. Adams of Lansing at their cottage on the Manistee. Eleanor Adams is a cousin of Mrs. Christensons.

I've had two calls this week telling me what a beautiful garden Mrs. Gildner on State St. has again this year. She has added impatiens to the front and the backyard is a riot of color. There are so many beautiful flowers and vegetable gardens around all over town. Keep it up, Grayling.

The office of the Grayling Elementary School is now open for registration and information.

Softball Winners At Frederic

The Slow - Pitch Softball games were a huge success. These were tournament games, which started Friday evening and lasted through Saturday and Sunday.

As many as 300 turned out to each of the games. The games went on through rain and all kinds of weather, but it didn't stop the many teams participating or dampen their spirits.

The teams that won trophies were: 1st prize, Shoppagon's; 2nd prize, Flaming Kettle of Houghton Lake; 3rd prize, Van's Lumber Co.

It was great to see Frederic once again have a baseball team and show them all the Frederic spirit. Do you recall the Frederic baseball teams of the 1940's? We had great teams in those days and lots of followers. Many of those fellows that were on the teams in the old days are still here living in Frederic. So, fellas, let's keep up the good work and keep the Frederic team going.

70 Enjoy Golf Outing

by Fay Bovee

The August Sunday Couples Party on Sunday, August 21, was a huge success, thanks to the combined efforts of a great committee: Bruce and Corinne Smith, Dick and Ann DuBois, Bill and Marian Joseph and Bill and Kathryn Stewart.

Threatening rain clouds did not keep one person from showing up and about 70 people enjoyed an afternoon of golf along with a few sprinkles of rain.

Gary and Marlene Vajda and Charlie and Liz Vajda came in with a low of 33 in the Scrambles, with second place going to Bill and Marian Joseph and Bill and Kathryn Stewart with 34. High score went to Fred and Vivian Bishop and Melvin and Thelma Bishop with a score of 37.

The grand door prize of \$10 went to Bill and Donna Denton and many other balls and tees were given as door prizes.

Everyone cooked their own steaks and then enjoyed with them, baked potatoes, rolls, coleslaw and gelatin salads. A good time was had by all.

The next Sunday Couples party is scheduled for September. Watch the bulletin board at the club.

ABWA News

The regular monthly meeting of the Grayling Charter Chapter of the American Business Women's Association was held on Tuesday evening, August 16, 1977 at the Grayling House.

Kathleen Parkinson, President, along with Betty Bennett, Vice President, and Karen Casler, Membership Chairwoman, conducted the initiation ceremony for four new members: Ann Keil, representative for Newton Manufacturing; Connie Stump, owner of Crawford County Glass; Carol Doyle representative of Viviane Woodard Cosmetics and Joanne Shively, owner of the Grayling Red Barn.

Guest speaker was Scott Flick, a foreign exchange student from Grayling to Santiago, Chile, last summer. He told of his experiences while living there and about his adopted family.

Vocational Speaker was Alice Lattimer, a 5th grade teacher at Frederic Elementary School. She told her many varied duties involved as a teacher.

An increase in the amount of our scholarship as well as a new scholarship recipient, Janice Annis, was voted upon.

We are now proud to boast of 51 members in our chapter, which is one of the largest for a community of our size, and the Mayor's Cup which was awarded to us for the best service group float at the Milltown Parade.

A Nominating Committee was selected to fill a slate for new officers. The members of this committee are Deanna Bartell, Joyce Bourrie and Alice Lattimer.

The next monthly meeting of the Chapter will be held on Tuesday evening, September 20th.

Sweet Adelines Activities

We are still in a state of shock over the tremendous turnout we had for our Gong Show. We apologize to the people we had to turn away at the door for lack of space and if there are any persons who had purchased tickets in advance and could not get in, please turn your tickets over to us and we will refund your money.

No Gong Show on television has a panel of judges to surpass ours in wit and dedication to their job. We thank Dorothy Troyer, John Huss, and Rev. Jim Hilliard for taking on this hard task, and sitting through all the acts.

Dick Fuller did a terrific job as host and we thank him sincerely. Next a big thanks to the acts that performed in the Gong Show and congratulations to the winning act, "Violet Velvet", and family act of 3 little boys and their sister who played instruments while singing - "When The Saints Go Marching In."

A big thank you goes to Darlene Michaels who performed for us so well. She is a talented lady and we were honored to have her on our program. Thank you too, to her little daughter who charmed the audience when she sang with her mother.

We must not forget to thank the stage hands, whose names I do not even know, who took props on and off the limited stage area. You really helped us out enormously.

Mid-Mitten Chapter is happy to greet three new members, Carol Bunge, Iris LaDuke and Margo Dirksen. Welcome to the chapter girls... we are so glad you joined. Guests at the August 17th rehearsal were Louise Bartig and Sandy Britton.

August 27th we will hold our first coaching session at the Roscommon High School from 3 - 7 P.M. All members are urged to attend and all you bosses who have a Sweet Adeline working on Saturday - sure would be nice if you let them off early. These coaching sessions are what helped place us so high in competition so we can't let down now.

DATE: August 25, 1977
Crawford County
Crawford County Court House
Grayling, Michigan 49738
Telephone 517/348-9223

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

The above named County proposes to request the U.S. Department of Housing and Urban Development to release Federal Funds under Title I of the Housing and Community Development Act of 1974 (PL 93-363) to be used for the following project:

HOUSING REHABILITATION AND COMMUNITY FACILITIES IMPROVEMENT TO REHABILITATE HOUSING, SEPARATE STORM AND SANITARY SEWERS, CONSTRUCT STORM SEWERS, AND IMPROVE ROADS, VILLAGE OF FREDERIC, GRAYLING TOWNSHIP, GRAYLING CITY, CRAWFORD CO., MICHIGAN \$380,000.

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and, accordingly, the above named County has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The reasons for such decision not to prepare such statement are as follows: The impact of the proposed project activities on the environment is negligible and, where such impacts exist, they are of a beneficial nature.

An Environmental Review Record respecting the within project has been made by the above named County which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Record is on file at the above address and is available for public examination and copying, upon request, between the hours of 9:00 a.m. and 4:00 p.m.

No further environmental review of such project is proposed to be conducted, prior to the request for release of Federal funds.

All interested persons, groups and agencies disagreeing with this decision are invited to submit written comments for consideration by the County to the Chairman of the Crawford County Board of Commissioners. Such written comments should be received at (the address specified) on or before September 10, 1977. All such comments so received will be considered and the County will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

notify the Sheriff's Office who will alert the Red Cross Fire Support Team on standby.

The responsible Red Cross Fire Support Team will immediately proceed to the Courthouse, pick up the equipment, go to McDonalds of Grayling for the food and drink and then proceed to the fire fighting scene to serve the Volunteer Fire Fighters.

All of the Fire Support Teams are equipped with CB transceivers and communication arrangements are excellent.

Obviously we hope they will never be called into action, but, they are ready, willing and prepared when the need arises.

Crawford County Chapter/American Red Cross is proud of its Volunteers who are making this Fire Support Service possible, and are pleased to assist in providing this badly needed community service.
